

INTRODUCTION

My name is Hafsah Toft. I’m married and have five children, Alhamdulillah. My family and I live in a lovely home that my siblings and I inherited from our grandfather. They all agreed to give it to me, so I don't have to pay the rent because I own it. I also don’t pay tax.

The house is in Bosnia, in a village near the city. The kids go to school nearby. We recently bought a car, a beautiful red Cabriolet. It helps us a lot Alhamdulillah. I work as a housewife, important things first, and a fashion designer. Monthly, I earn approximately 5,590\$, and keep in mind I’m top tier when it comes to fashion.

We have a special water source that my grandfather brought all the way from the stream down the hill, so we don’t have to pay for it. We produce most of the food we consume; vegetables, fruits, juice, milk products, and meat. We get eggs from our generous neighbors. We turn to markets only for spices, chicken, nuts, oats, sweets, hygiene supplies, etc...

Education is free in Bosnia so we don’t pay for the kids schools!

YEARLY INCOME

$$5,590\$/\text{month} - 159\$/\text{month (spending)} = 5,431\$$$

$$5,431\$/\text{month} \times 12 \text{ months} = 65,172\$$$

The total left from the entire year is exactly 65,172\$

WHAT ARE THE MONTHLY EXPENSES?

By: Hafsah Toft

MONTHLY EXPENSES

Expenses:	Estimated cost:
Rent and tax	0\$
Water	0\$
School	0\$
Electricity	50\$
Internet	11\$
Car gas	55\$
Food and groceries	44\$
Total	159\$

CALCULATING HOW MUCH ZAKAH I HAVE TO GIVE:

$$65,172\$/\text{year} \times 1/40 \text{ (Zakah requirement)} = 1629.3\$$$

I have to give away 1629.3\$.
